SmartChem

SINGLE KNOWLEDGE-BASE. SERVES 3 INDUSTRIES

PHARMACEUTICALS • AGROCHEMICALS • SPECIALTY CHEMICALS

SmartChem offers a wealth of decision-focused information for Sourcing, R&D and Business Development functions – saving significant time and resources.

A Provides a unique solution for identifying and selecting suppliers for raw materials, advanced intermediates, and finished goods (APIs, Agrochemicals, and Specialty chemicals).

B Provides a seamless and comprehensive solution, consolidating extensive information onto a user- friendly platform. Users can effortlessly search information by chemical names, CAS numbers, structures, and company names.

C Find trade data with price, Quantity, and Unit rates - all in one place.

Key features for Pharma

1. Over 13500 APIs and 10000 validated worldwide chemical suppliers and formulators.

2. Validated contact details GMP data across the world and non-compliance data from the USA, Europe and Canada.

3. Over 32000 Routes of synthesis for APIs.

4. Patent expiry details (with date-search option) from countries like USA, Canada, Japan and Europe.

5. Dosage information from the USA, Europe, Canada, Brazil, Mexico, Saudi Arabia etc.

6. Formulation and formulators (branded and generic) information for APIs as well as Fixed Dosage Combinations (FDCs).

Key features for Agrochemicals

1. Over 5000 Agrochemicals (commercial and under-development) and over 9000 validated suppliers of Agrochemicals, raw materials and intermediates.

2. Over 8000 Routes of synthesis for Agrochemicals (commercial and under-development) with detailed multi-step reaction schemes and references.

3. Agrochemical registration data from Europe, India, UK, Japan, Mexico, Canada etc.

Key features for Specialty chemicals

1. Over 30000 of Specialty Chemicals and 12000 validated suppliers.

2. 50000+ Routes of synthesis with detailed multi-step reaction schemes and references.

3. Applications data for chemicals and intermediates from various industries like Plastics, Food and Packaging industry, Polymers, Excipients for Pharma and Agrochemicals etc.

4. Cross-industry business opportunities for intermediates and raw materials.

TESTIMONIAL

"I've been using SmartChem database for several years. I'm pleased to state that it's a very important tool for the search of suppliers all over the world. The distinction among manufacturers, traders and catalogue producers is really useful for my job. Also, the introduction of REACH status has been really appreciated."

Chiara Varini, Senior Procurement Responsible Direct Procurement Lundbeck Pharmaceuticals Italy S.p.A
